national and international communications services; and (6) the general methodology for approval of transmitting and radiating equipment. It will include discussions with telecommunications industry leaders and will provide exposure to state-of-the-art systems in advanced communications technology from those in industry who are involved on a day to day basis.

**9. Participant Learning Objectives:** Participants will be able to: (1) understand the appropriate principles of national civilian radio spectrum management systems; (2) understand the automated station and equipment authorization process; (3) learn how to deal with the general public for information dissemination and radio interference complaint purposes; and (4) initiate or review civilian statutory and regulatory policies for new or expanded radio services, and be aware of the latest technology in telecommunications arenas.

**10. Methodology:** Participants will receive instruction from FCC staff in Washington, DC; Columbia, MD; and Gettysburg, PA; and by Comsearch, the course co-sponsor, in communications engineering. Course time will be divided into classroom work in Washington with both sponsors, a tour of the FCC Laboratory in Columbia, MD, where equipment radiation measurement and authorization work is accomplished, and a visit to the automated FCC license issuance processing line in Gettysburg, PA.

The course will be augmented by site visits to operating commercial telecommunications entities. Current issues confronting common carrier, mass media, and private radio terrestrial and satellite-based telecommunications services will be discussed. Regulatory policy options will be examined, the national process for creating telecommunications rules and regulations will be explained, and the spectrum allocation and assignment process will be examined. In addition, market based spectrum philosophies, such as lotteries and auctions, will be discussed. The application of new and modern technologies (personal communications, cellular, paging, both low-Earth and geostationary mobile-satellite service, advanced and high definition television, digital audio radio, multiple access, satellite coordination, switching, ultra-wide band, etc.) will be included in

- Each scholarship recipient is responsible for arriving in time for the commencement of activities on the date established by the institution offering the course or program.
- If the scholarship recipient fails to travel on the scheduled dates, or change routes, after the General Secretariat of the Organization of American States (GS/OAS) has purchased his/her travel ticket, he/she will be responsible for paying the difference in ticket costs in order to arrive at the course site in time. The scholarship recipient will furthermore have to **reimburse** the GS/OAS the total cost of the airfare for his/her travel from his/her country of residence to the site where the Professional Development Course will take place and back if, after the ticket has been purchased, he/she declines the scholarship without written authorization from the Department of Human Development.
- The latter includes any additional costs, if any, incurred by the GS/OAS, such as extra costs for accommodation during the scholarship recipient's travel to and from the country where the course will be held.
- If the fellow declines, cancels or terminates the Scholarship after the course or program has started without providing the GS/OAS with a compelling reason, he or she will have to **reimburse** GS/OAS the total amount of incurred costs/expenses.

**15. Certification:** The participants will receive a diploma from the United States Telecommunications Training Institute (USTTI), regional Training Center of the Inter-American Telecommunication Commission.

**16. Presentation of candidacies:**

***Please Notice: If you were awarded an OAS Professional Development Scholarship in the past twelve (12) months or if you currently hold an OAS Scholarship for Academic Studies, you are not eligible to apply for another Professional Development Scholarship.***
